Expiry: April 6th, 2018

It is your responsibility to download the files to your computer, before the expiry date. Galleries are deleted after the expiry date, because of limited space available.

Clients who do not download their image files before the expiry date, will be charged a fee of R250 for uploading the gallery and emailing it to them again.

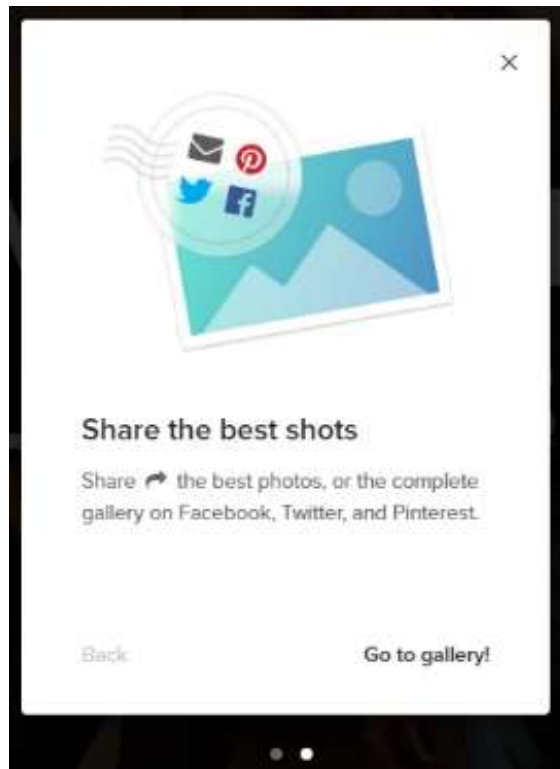

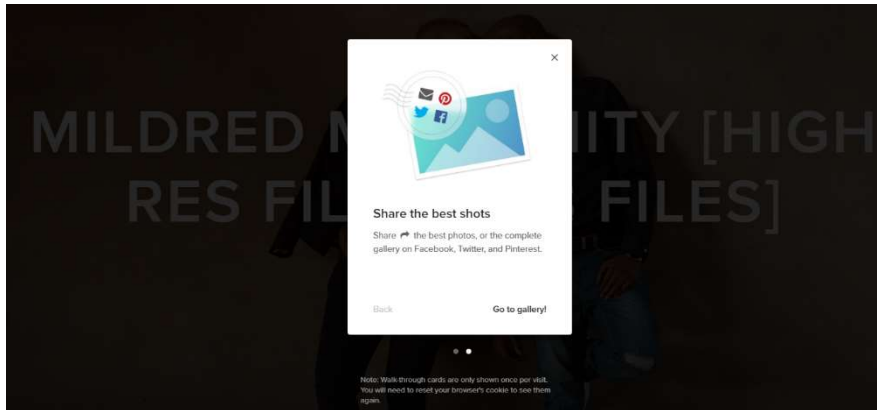

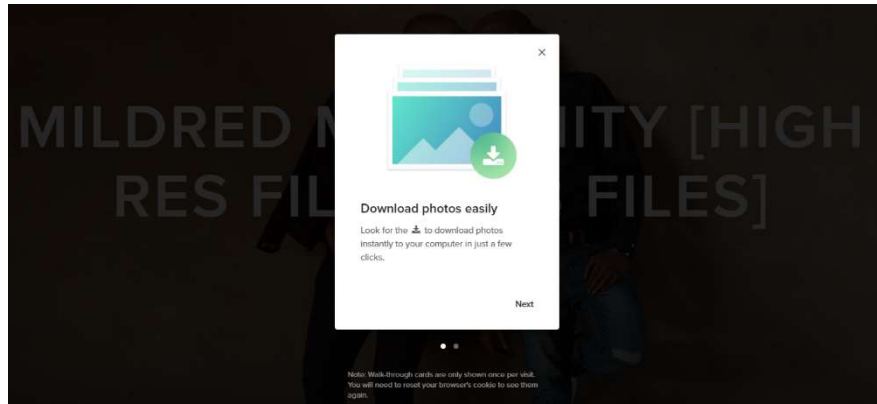

Image files should preferably be saved to two different locations as backup.

Karen Barnard Photography does not keep photos for an indefinite period and I cannot guarantee that I will still have your images if you lose them or if they get deleted. Always make sure to print your images, even if you have the files on computer. Technology is not perfect.
